Why This Matters

These awards honor outstanding products exhibited at the show.

NewBay Media's *Residential Systems* and *TWICE* have named their 2016 Best of Show Awards for CEDIA 2016 in Dallas.

These awards honor outstanding products exhibited at the show. Manufacturers submitted products for nomination prior to arriving in Dallas, then a panel of anonymous professional integrator and journalist judges evaluated the entries based on written submissions and visual inspections on CEDIA show floor. A CEDIA exhibiting manufacturer could nominate its product for either *Residential Systems* or *TWICE*, or both.

Here are the winners:
